

The background features a complex, abstract design. It consists of a dense network of thin, dark purple lines connecting small, dark purple dots, creating a web-like or molecular structure. This network is overlaid on a background of larger, semi-transparent, light purple geometric shapes, primarily triangles and polygons, which create a layered, crystalline effect. The overall color palette is monochromatic, using various shades of purple.

DATA INTERPRETATION

Number of students studying six disciplines from six colleges

Discipline → ↓ College	Science	Commerce	Architecture	Arts	Engineering	Management
A	362	245	186	124	488	324
B	326	264	166	142	525	348
C	354	252	172	138	530	342
D	368	256	168	132	532	348
E	356	265	162	136	496	342
F	352	272	166	146	512	354

1. What is the difference between the total number of students studying Science and the total number of students studying Architecture?
- (1) 1,028 (2) 1,198
(3) 1,098 (4) 1,078

Number of students studying six disciplines from six colleges

Discipline → ↓ College	Science	Commerce	Architecture	Arts	Engineering	Management
A	362	245	186	124	488	324
B	326	264	166	142	525	348
C	354	252	172	138	530	342
D	368	256	168	132	532	348
E	356	265	162	136	496	342
F	352	272	166	146	512	354

- 4.** What is the ratio of the number of students studying Commerce in colleges A, C and E together to the number of students studying Arts in colleges B, D and F together?

(1) 127 : 70

(2) 137 : 90

(3) 147 : 110

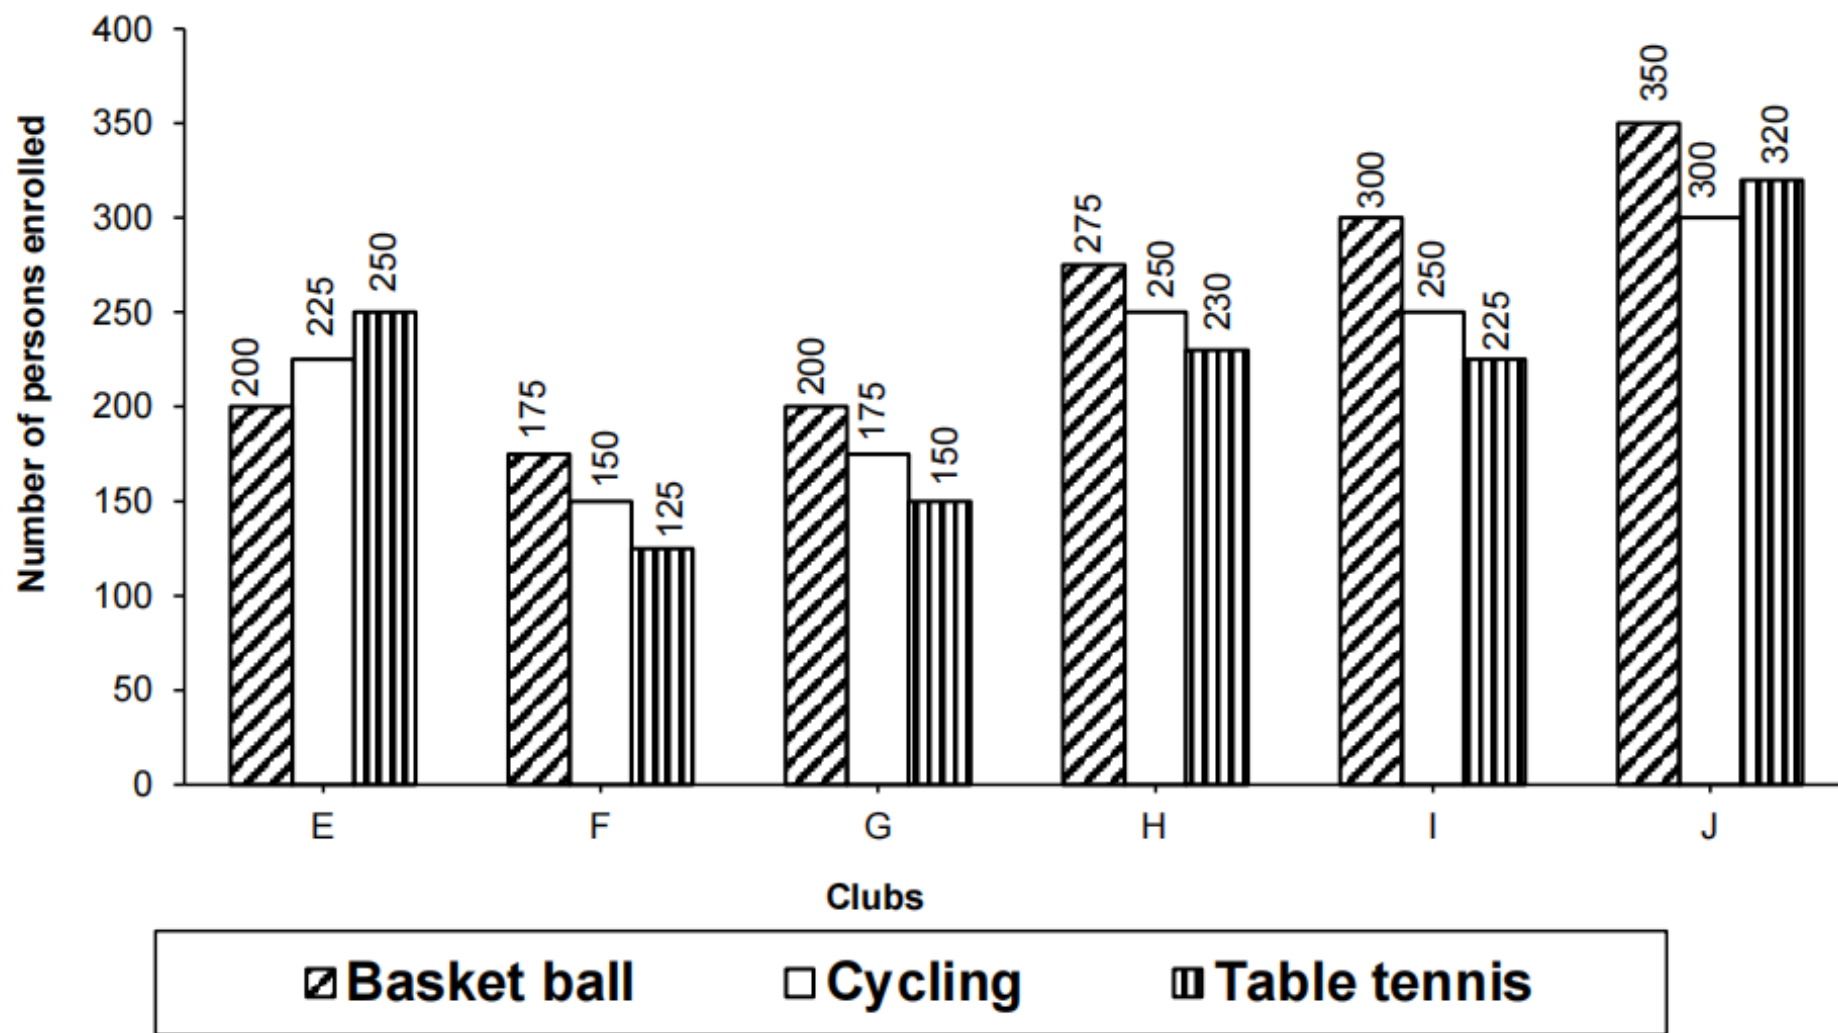

(4) 167 : 130

(5) 157 : 120

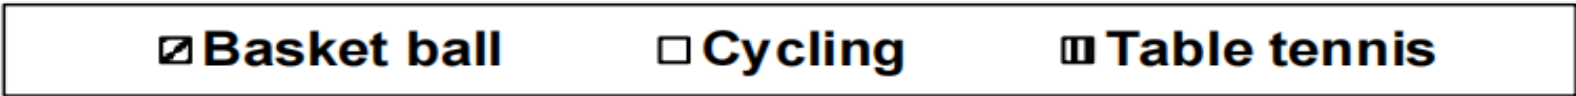

Number of students studying six disciplines from six colleges

Discipline → ↓ College	Science	Commerce	Architecture	Arts	Engineering	Management
A	362	245	186	124	488	324
B	326	264	166	142	525	348
C	354	252	172	138	530	342

E	356	265	162	136	496	342
F	352	272	166	146	512	354

5. By what approximate percentage is the total number of students studying in college D more than the total number of students studying in the college A?
- (1) 5.6% (2) 4.3%
- (3) 3.5% (4) 6.8%
- (5) 10.5%

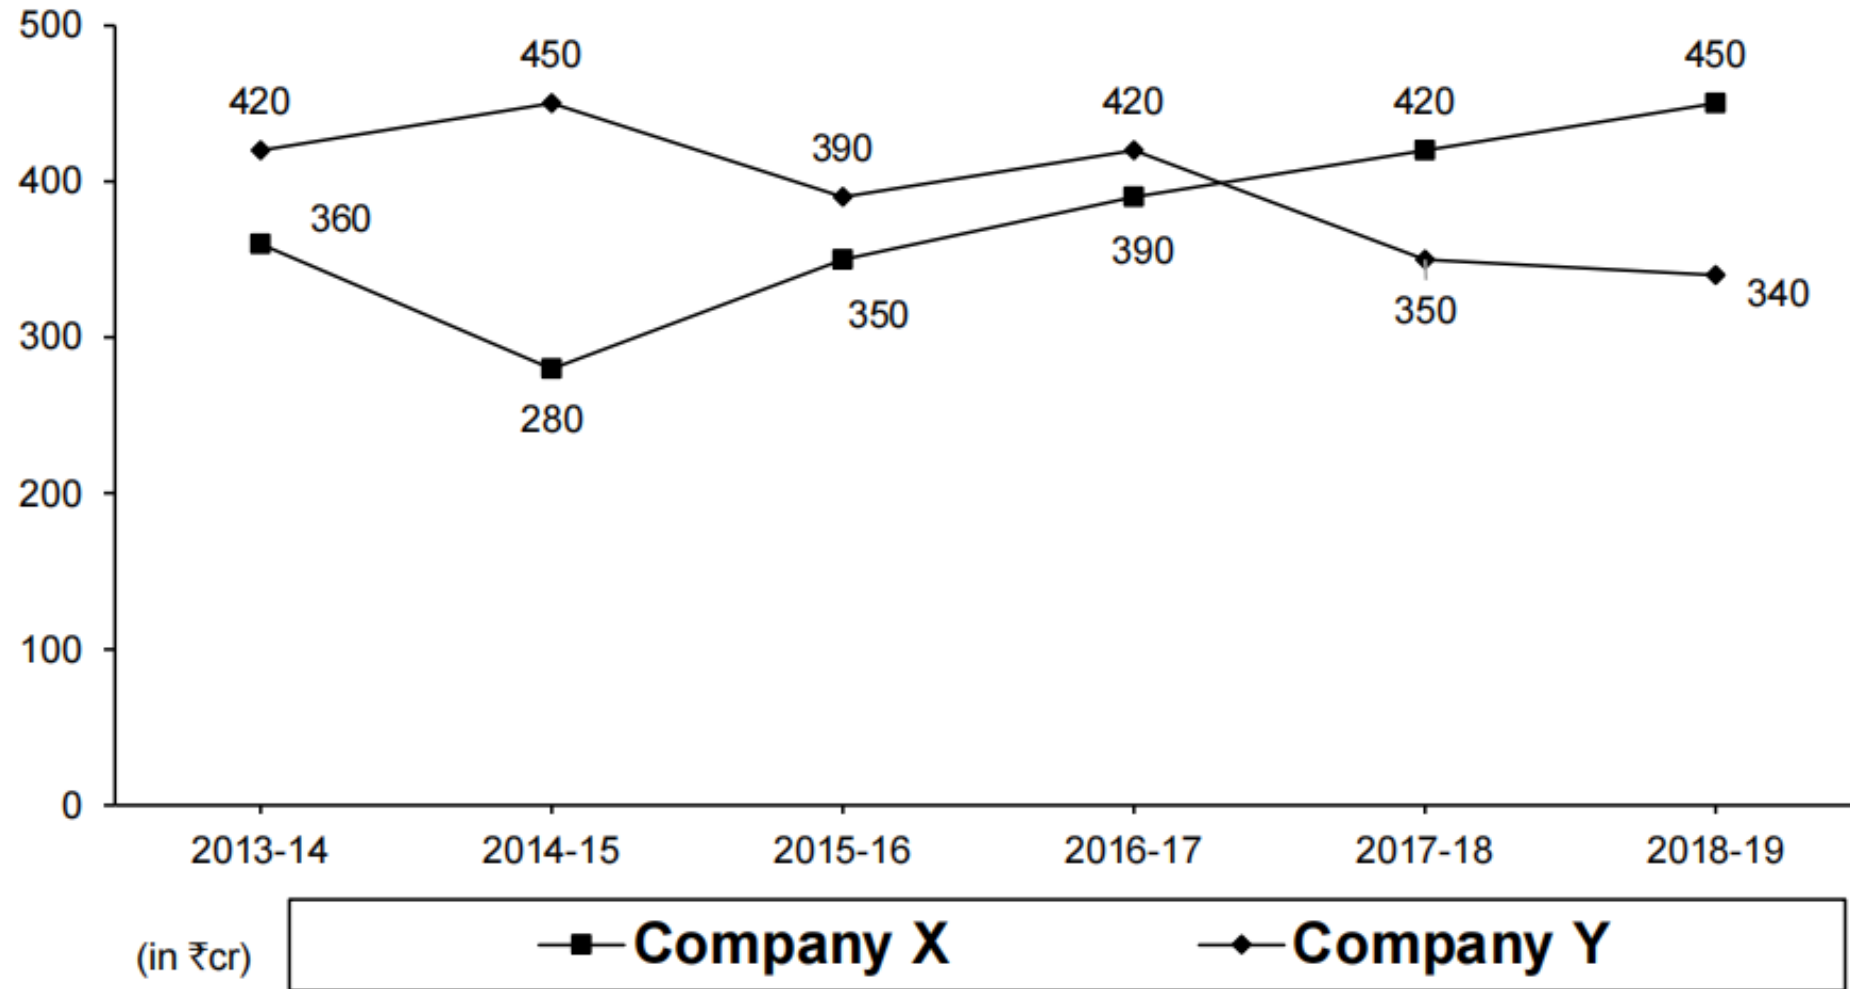

6. What is the total number of persons enrolled in table tennis in all the clubs?
- (1) 1,400 (2) 1,250
(3) 1,200 (4) 1,100
(5) 1,300

7. What is the respective ratio of the total number of persons enrolled in cycling in F, H and J to those enrolled in basketball in F, G and H?
- (1) 11 : 12 (2) 12 : 11
(3) 13 : 14 (4) 14 : 13
(5) 10 : 9

Sales of companies X and Y from 2013-14 to 2018-19

Note: i) Profit = Sales – Cost of production
ii) Profit % = (Profit/Cost of Production) x 100%

11. In 2016-17, the profit percentages of companies X and Y are 20% and 5% respectively. What was the total profit of the two companies together?

- (1) ₹65 cr (2) ₹85 cr
- (3) ₹105 cr (4) ₹125 cr
- (5) ₹75 cr

12. What is the ratio of the total sales of company X in 2014-15 and 2015-16 to the sales of companies Y in 2016-17 and 2017-18 together?

- (1) 3 : 5 (2) 5 : 7
- (3) 7 : 9 (4) 9 : 11
- (5) 11 : 13

13. What is the average sales per year of company Y from 2013-14 to 2018-19.?

- (1) ₹355 cr (2) ₹375 cr

- (3) ₹395 cr
- (5) ₹435 cr

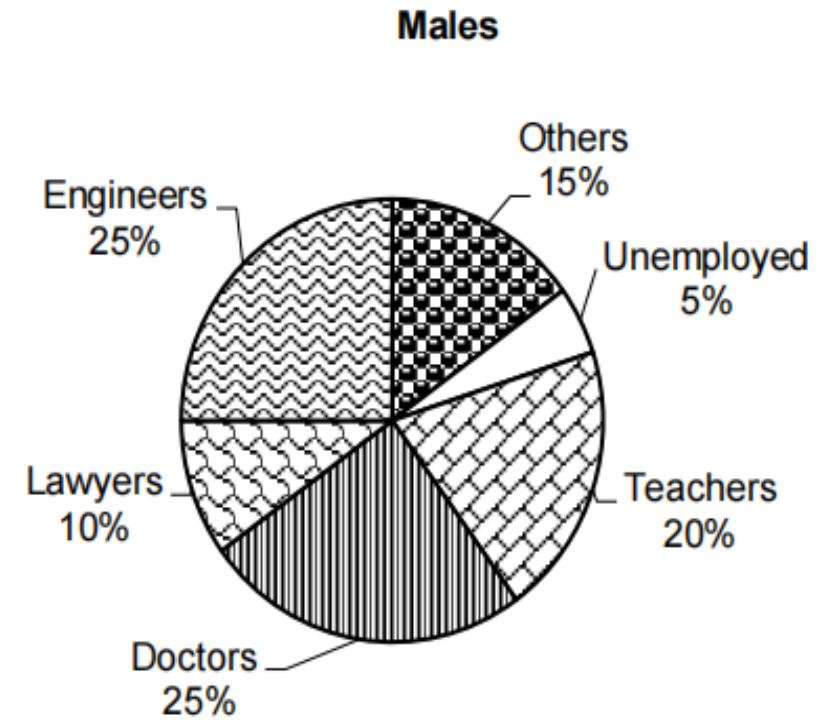

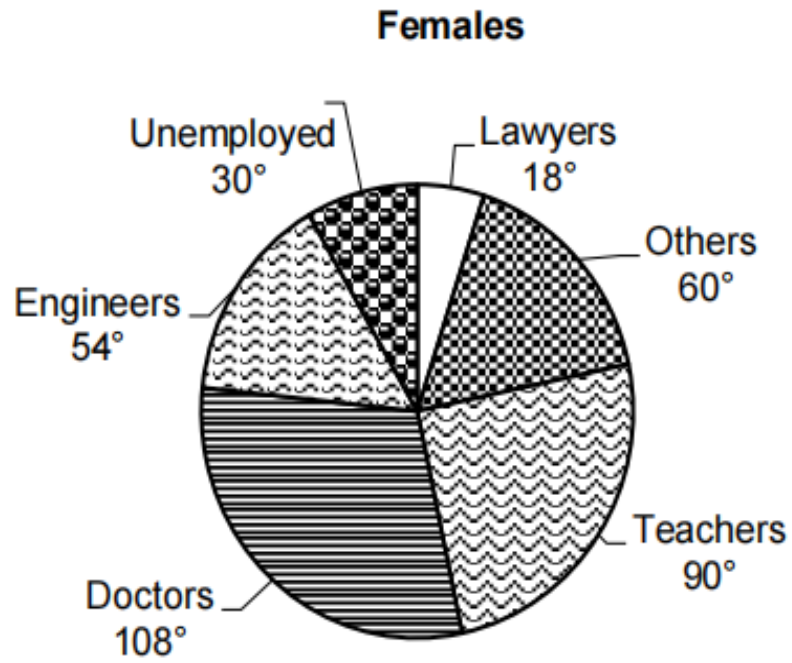

(4) ₹415 cr

14. In 2014-15, the total cost of production of the two companies together was ₹650 cr with the ratio of the cost of production of the company X to that of the company Y being 5 : 8. What was the profit percentage of the company Y?

- (1) 12.5% (2) 15%
- (3) 17.5% (4) 20%
- (5) None of these

15. The sales of company X in 2018-19 is what percentage of the total sales of the company in all the given years together?

- (1) 15% (2) 20%
- (3) 25% (4) 30%
- (5) 35%

The above two pie-charts give the distribution of adults in a city.

The total number of adults = 98000

The ratio of the number of male to that of female among the adults in the city is 25 : 24.

16. What is the difference between the number of male lawyers and female lawyers?

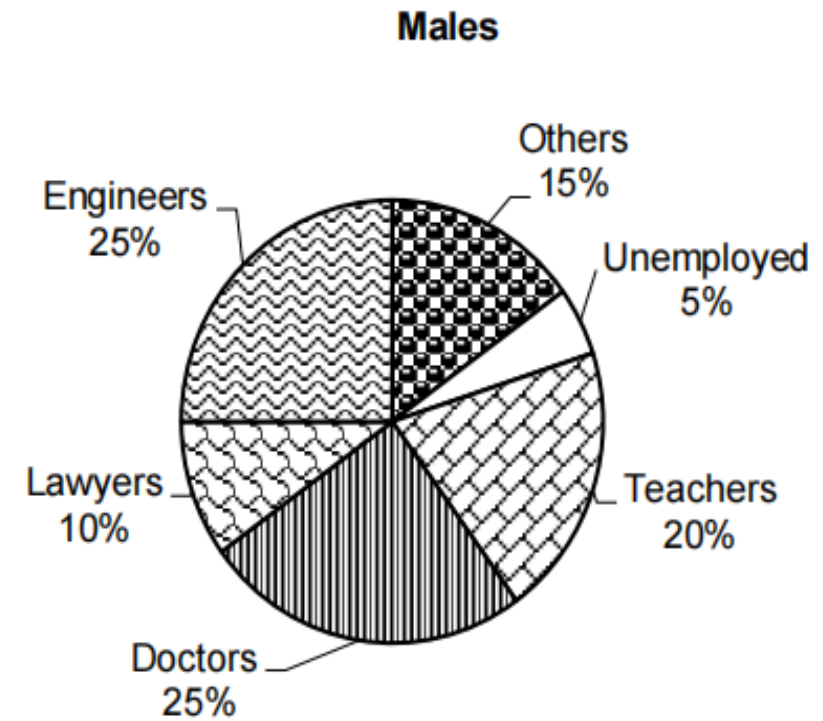

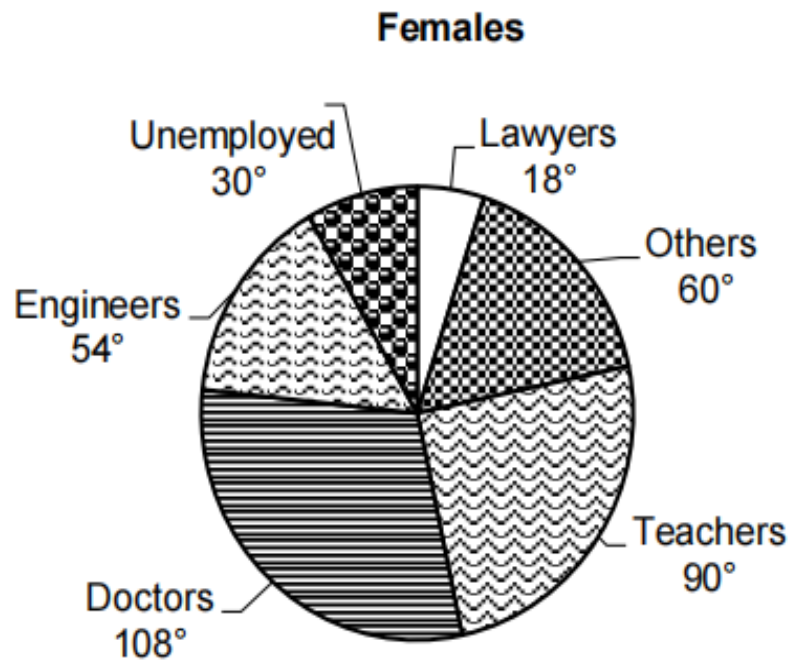

(1) 2,600

(2) 2,400

(3) 2,480

(4) 2,530

(5) 2,440

The above two pie-charts give the distribution of adults in a city.

The total number of adults = 98000

The ratio of the number of male to that of female among the adults in the city is 25 : 24.

17. What is the number of female teachers in the city?

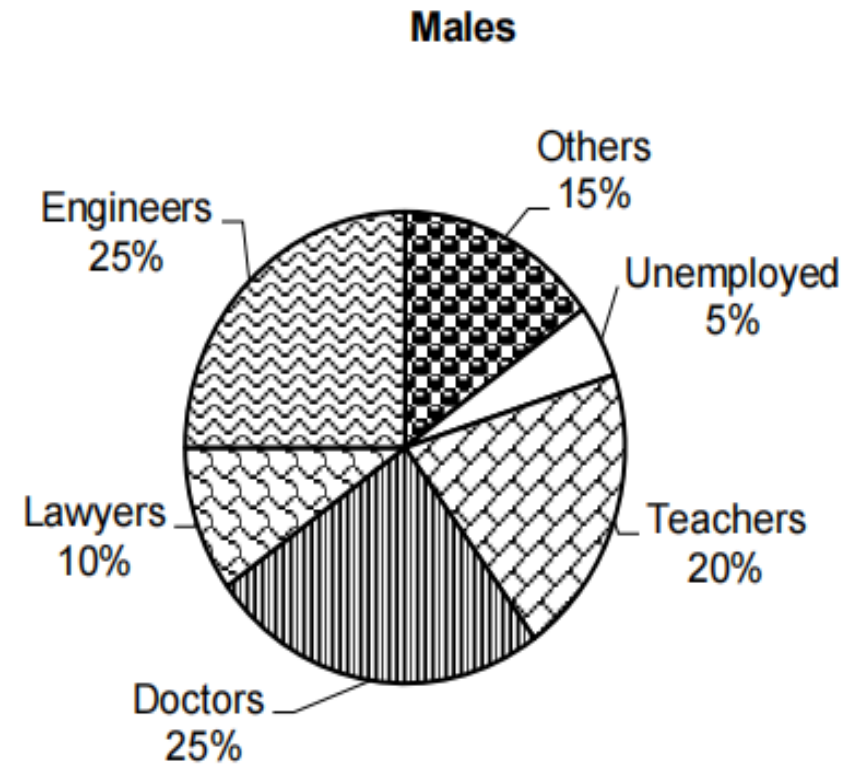

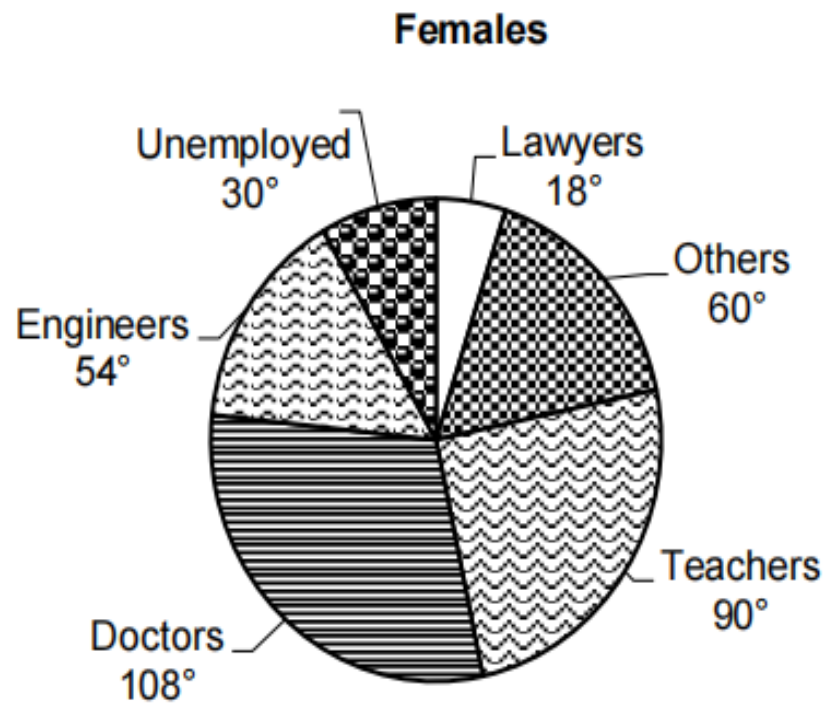

(1) 1,200

(2) 12,200

(3) 12,000

(4) 10,800

(5) 15,000

The above two pie-charts give the distribution of adults in a city.

The total number of adults = 98000

The ratio of the number of male to that of female among the adults in the city is 25 : 24.

18. What is the total number of engineers in the city?

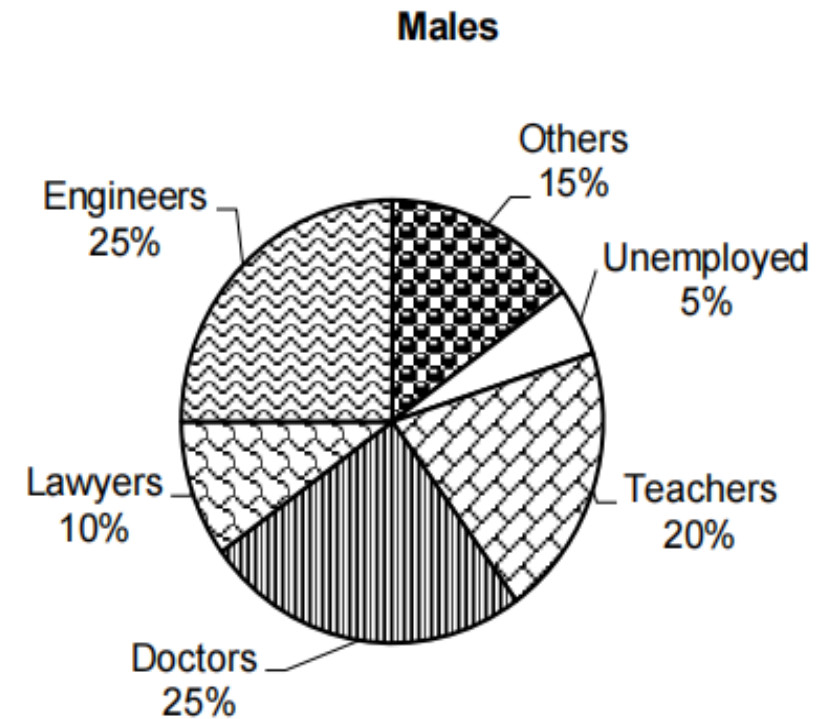

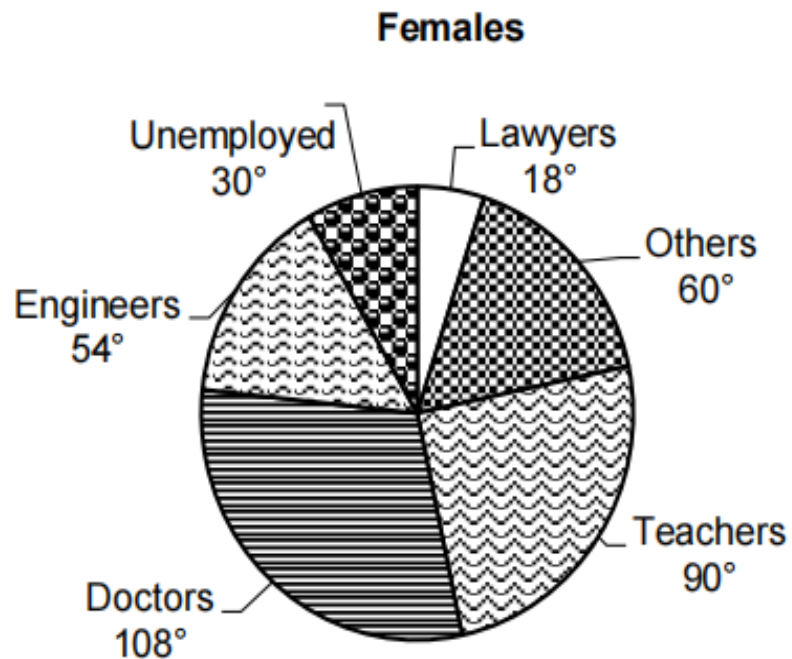

(1) 12,500

(2) 7,200

(3) 19,500

(4) 20,700

(5) None of these

The above two pie-charts give the distribution of adults in a city.

The total number of adults = 98000

The ratio of the number of male to that of female among the adults in the city is 25 : 24.

19. The number of males who are unemployed as a percentage of the total unemployed persons in the city is _____.

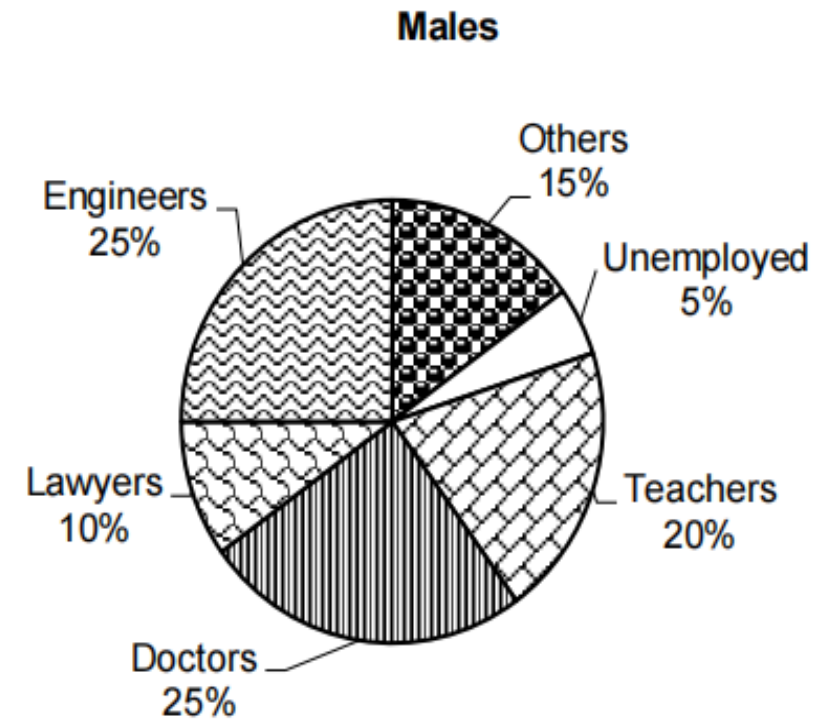

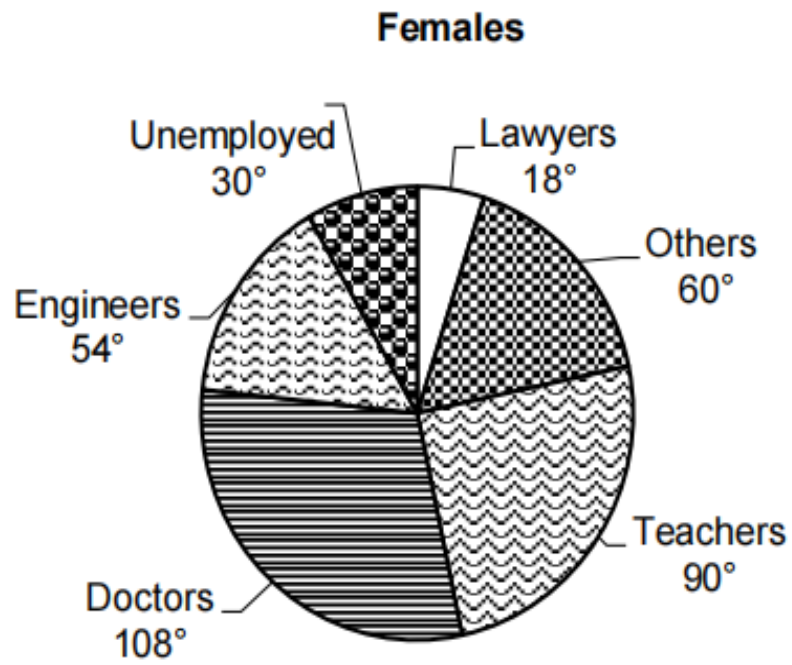

(1) 40%

(2) 50.5%

(3) 56.5%

(4) 38.5%

(5) 34.5%

The above two pie-charts give the distribution of adults in a city.

The total number of adults = 98000

The ratio of the number of male to that of female among the adults in the city is 25 : 24.

20. What is the ratio of the total number of engineers to that of teachers in the city?

(1) 146 : 201

(2) 79 : 84

(3) 35 : 43

(4) 197 : 220

(5) 211 : 233
