

ANALOGY

WHAT IS ANALOGY?

What is analogy?

- Analogy is the parallel comparison between two different things.
 - It is a common question asked for almost all the placement as well as competitive examinations.
 - It mainly test your,
 - Strength of vocabulary
 - Logical thinking ability.
 - Ability to recognize parallel construction.
-

ANALOGY CONSTRUCTION

- E.g. FIND:LOCATE :: LOSE:MISPLACE

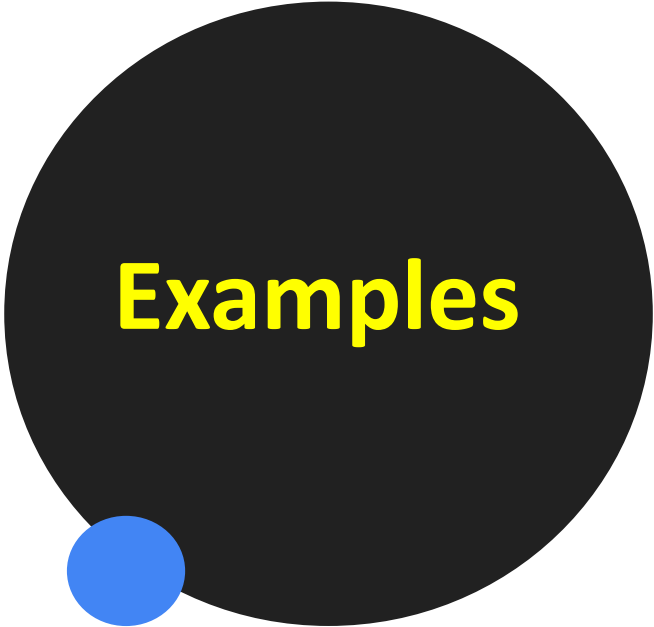

Here, colon(:) stands for “is related to”

And double colon (::) stands for “in the same way that”

Find is related to locate in the same way lose is related to misplace

Types of Analogy

- Synonyms or antonyms
- A part of the whole
- A member of the category that contains it
- Cause to effect or effect to cause
- Varying degrees of a quality or quantity
- Object to its function
- Characteristics etc.

Examples

- Infant: Baby :: Grown Up: _____?
- Big : Small :: Full: _____?
- Wheel : Car :: Branch: _____?
- Apple : Fruit :: Carrot :: _____?
- Sliver: Pain :: Heat :: _____?
- Warm: Hot :: Cool: _____?
- Truck : Transport :: Oven: _____?

Infant : Baby :: Grown Up : ?

 **Adult**

Infant and baby are similar; grown-up means adult.

Big : Small :: Full : ?

 **Empty**

Big $\leftrightarrow$ Small (opposites), Full $\leftrightarrow$ Empty (opposites).

Wheel : Car :: Branch : ?

 **Tree**

A wheel is part of a car; a branch is part of a tree.

Apple : Fruit :: Carrot : ?

 Vegetable

Apple is a fruit; carrot is a vegetable.

Sliver : Pain :: Heat : ?

 Burn

A sliver [sharp piece of something,] causes pain; heat causes burns.

Warm : Hot :: Cool : ?

 Cold

Warm becomes hot; cool becomes cold.

Truck : Transport :: Oven : ?

 Cooking (or Cook)

A truck is used for transport; an oven is used for cooking.

**Strategies to
find the
answers**

**1. Find the bridge
and nail the
bridge.**

Philately : Stamps :: _____?

- Cartography : Maps
- Geriatrics : Ailments
- Numismatics: Coins
- Botany : Leaves

Explanation:

- The Relationship (Bridge): Philately is the study, collection, or appreciation of stamps.
- The Parallel Match: Numismatics is the study or collection of coins.

Why the other options don't fit best:

- Cartography : Maps – Cartography is specifically the *art and science of making maps*, not collecting them.
- Geriatrics : Ailments – Geriatrics is a branch of medicine focusing on health care for the elderly, not specifically the study/collection of ailments generally.
- Botany : Leaves – Botany is the scientific study of *all plants*, while leaves are just a specific part of a plant.

2. Be specific

•Pseudopod :Amoeba::_____?

a)Branch : Tree

b)Tentacles: Octopus

c)Shell : Snail

D)Tail : Lizard

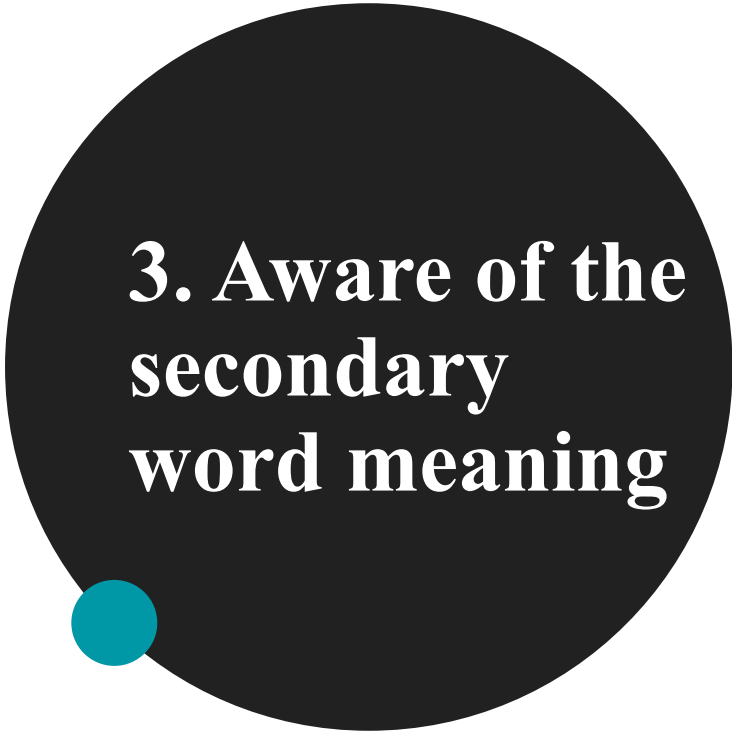

pseudopod (or pseudopodium) is a temporary, foot-like projection used by an **amoeba** for movement and capturing food.

Tentacles are flexible, mobile appendages used by an **octopus** for movement, grasping, and feeding.

Why the other options don't fit best:

- **Branch : Tree** – A branch is a structural part of a tree, but it is stationary and not used as a mobile appendage for locomotion.
- **Shell : Snail** – A shell is a protective exoskeleton, not a protruding or flexible organ used for movement.
- **Tail : Lizard** – While a lizard's tail can be used for balance or defense, it is a permanent vertebral extension rather than a specialized, flexible limb or projection analogous to a pseudopod or tentacle.

3. Aware of the secondary word meaning

Pan: Camera:: ?

- a) Twist : Doorknob
- b) Tune: Radio.
- c) Charge: Battery
- d) Flip : Mirror.

Why the other options don't fit best:

- **a) Twist : Doorknob** – A doorknob is operated by twisting, but twisting is a physical manual action applied to the knob itself rather than adjusting an internal device setting to align a feed or channel.
- **c) Charge : Battery** – Charging a battery supplies it with electrical energy, which is a restorative or powering process rather than an operational adjustment.
- **d) Flip : Mirror** – A mirror doesn't get flipped to function or capture an image in the mechanical or directional sense that a camera is panned.

ANALOGY QUESTIONS

Electricity: Wire::_____?

- **Car: highway**
- **River: bank**
- **Light: bulb**
- **Fluid :pipe.**

ANALOGY QUESTIONS

Benevolence : Charity :: Malevolence : ?

Good

Harm..

Generous

Affection

ANALOGY QUESTIONS

Fox : Vixen :: Horse :..... ?

A. Colt

B. Filly

C. Mare

D. Pony

ANALOGY QUESTIONS

Archaeologist: Archaeology :: Ornithologist : ?

- Islands
- Mediators
- Aquatic
- Birds.

ANALOGY QUESTIONS

Genuine: Authentic:: Mirage: _____

Reflection

Hide Out

Image

Illusion.

ANALOGY QUESTIONS

Conductor is to Orchestra as Director is to:

Scene

Cast.

Stage

Actor

Explanation

- **The Bridge:** A **conductor** leads, directs, and coordinates the members of an **orchestra**.
